

My Favourite Oracle Card Spreads

One Card Spread

- Choose a card at the beginning of the day
- Ask a single question and pull a single card
- Yes/No answers – Think of the question you want an answer to while shuffling. Take a card from the deck when you feel compelled to. Cards with a positive energy would reflect a 'yes' and cards with a challenging energy would represent a 'no'. Keep in mind though that the card will want to offer advice too, so heed its message.
- Timing questions – a '3' card would indicate 3 days/weeks/months/years etc. Hold the card and ask your angels "is it 3 days?" Use your intuition to feel into the correct timing. An immediate knowing will come over you. Or else look at the picture for an indication of timing – an earth card may represent an autumn theme whilst the air has a distinct feeling of winter.
